25X1A ** Comment. assigned to the 49th Gds Tank Jegt of the 25X1C 12th Gds Tank Div in Securety. The percentage of recruits appears to have been overestimated. In general, the influx of recruits in the Soviet Zone of Germany and the departure of dischargees for the U.S.S.R. began only about 1 June 1951. In other respects, the present report, including the motor vehicle numbers mentioned therein, shows no change in the situation

at the Neuruppin post.
